

SEED TABLE

Kids have tons of work developing who they are, discovering the world, playing and learning... Choosing the right furniture will make their journey to become a grown-up a little easier. Transform their learning environment into the best possible playground. The SEED mini collection is all about comfort and style and is especially suited for the youngest ones. Various models in vibrant colors allow almost limitless combinations. The collection represents a style kids can grow into, ensuring a perfect fit for every learner from preschool to first grade.

The SEED MINI TABLE is a sustainable but lightweight 4 legged table. It can be easily moved around, even by the smallest ones, thanks to the integrated wheel. All tables are re-sizeable to 3 different heights, allowing an implementation in different age groups. The SEED MINI TABLE collection is available in playful shapes and inspiring colors that perfectly match together.

TABLE TOP

Eurolight 32 mm

EUROLIGHT is a composite board with strong surface layers, combined with a light, yet robust cardboard honeycomb core. In addition to their low weight, they feature outstanding stability.

ABS edge band 2mm

Table tops are 32mm thick and feature a 2mm ABS edge band. Color of edge band is adjusted to frame color.

FRAME

Two legs made out of Aluminum bended tubes (Dia 48mm), with a self-supporting top. Legs are height adjustable by means of plastic parts which are inserted underneath the aluminum tubes.

Height adjustable range : 12 cm in two steps of 6cm.
